

## Colback® Gold

CARRYING CRADLE TO CRADLE CARPETS

Product: DESSO AirMaster® Atmos

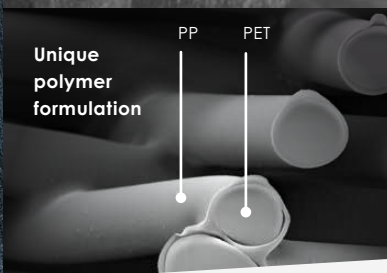

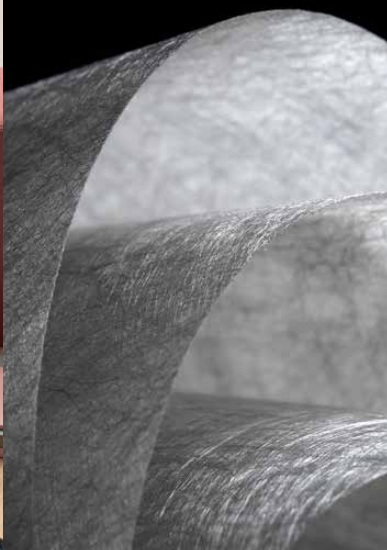

**Low & Bonar is dedicated to contribute to a more sustainable world. Our unique Colback® technology allows us to tailor our products and properties to meet specific flooring customer requirements.**

Colback Gold is the next extension of our Colback Profloor portfolio and specifically designed to meet the requirements of customers who have embraced the Cradle to Cradle philosophy. Colback Gold combines Colback Profloor's performance and environmental responsibility.

The development of the new Colback Gold products was initiated in cooperation with Tarkett, one of Low & Bonar's partners, who actively embraces the Cradle to Cradle-concept. In line with our unique

capabilities and dedication to the Flooring industry, Low & Bonar developed Colback Gold: a product allowing manufacturers to produce carpets satisfying the most stringent Cradle-to-Cradle requirements.

The development of Colback Gold demonstrates our capability to tailor specific product properties to meet individual customer or industry requirements. Please contact our technical representative to learn more about our capabilities and offerings.

Product: DESSO AirMaster® Desert

Product: DESSO AirMaster® Desert

Colback Gold offers the same benefits during carpet manufacture as our Colback Profloor. It allows manufacturers to create complex tuft constructions and helps to deliver a smoother carpet face. Colback Profloor and Gold prevent stresses being built into carpet tiles during manufacture; as a result, carpet tiles stay flatter and remain more dimensionally stable during service life.

With Colback Gold primary backings, the toughest carpet industry standards can be met easily, with a perfect floor as the result.

### How Colback Gold helps optimize your process and finished carpet

#### Enhanced tuftability

- Improved process efficiency
- Reduced noise level

#### Unmatched stitch holding

- Facilitates complex carpet designs with first-class appearance

#### Unique process behaviour

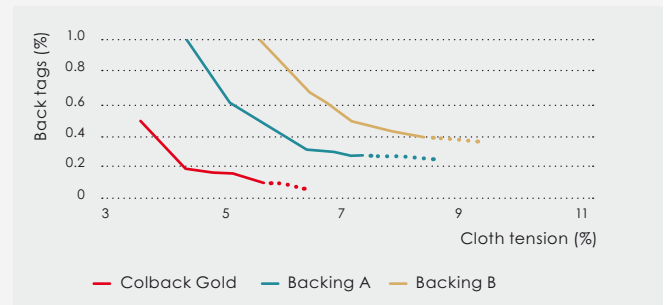

- No built-in stresses
- Carpet tiles remain flat with superior dimensional stability

#### Colback® Gold product range

- Weight range: 100 and 120 gr/m<sup>2</sup>
- Colours: Gray and black

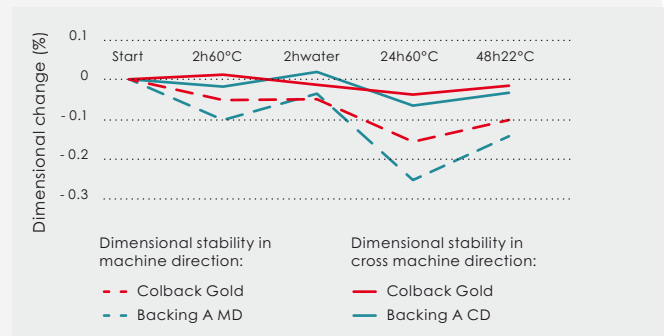

### Enhanced stitch holding during tufting

Number of back tags counted at critical tuft setting

### Improved dimensional stability of carpet tiles according to EN 986

Aachen test
